

Partnership Proposal — Universities & Institutions

Industry-aligned specialisation tracks, labs and placement support, powered by the SkillReigns learning model.

Skill Rules. Skill Reigns.

Proposal for academic partnership: bring practical, AI-powered specialisation tracks to your campus — live sessions, hands-on labs, real-world projects, industry guidance and placement support.

1. About SkillReigns

SkillReigns is a student-obsessed learning ecosystem on a mission of **enhancing cognition by leveraging science & technology** — public promise: **Empowering Humans with AI**. We take responsibility for the learning journey: learn → implement → experience → employability → placement. Student success is our key metric.

2. Proposed Programs

Specialisation Track	Format	Ideal For
Data Analytics with AI	Live + Labs + Projects	All disciplines
AI / Generative AI	Live + Labs + Projects	Engineering, Science, Business
MLOps / Cybersecurity / Robotics with AI	Live + Labs + Projects	Technical cohorts
AI for Business / Commerce / Non-Technical Roles	Live + Applied Projects	Non-technical cohorts

3. Delivery Model

- Live sessions by industry practitioners + SkillReigns platform access
- Hands-on labs, retention & recall-boosting learning patterns, continuous projects
- Experience programs, interview preparation and placement support
- Joint certification: [University Name] × SkillReigns (smart verifiable certificate)

4. Commercials (indicative)

Component	Detail
Program fee per student	[AMOUNT] / revenue share [X% / Y%]
Cohort size	[MIN]–[MAX] students
Duration & schedule	[WEEKS] · [DAYS/WEEK] · [HOURS]

5. Next Steps

1) Program & cohort finalisation → 2) MoU → 3) Orientation & onboarding → 4) Launch. Valid till [DATE].
