

Welcome & Onboarding — Instructors & Employees

Your first-week guide to the mission, the method and the brand.

Welcome, Reigner.

You joined a student-obsessed mission: enhancing cognition by leveraging science & technology — empowering humans with AI. This guide is your week-one companion.

1. The Mission

While the industry chases machine intelligence, we grow **human capability** — attention, understanding, recall, application. Student success is the key metric; everything else follows.

2. The Method (learn → earn)

Live Sessions → Platform → Labs → Real Projects → Recall Patterns → Expert Guidance → Experience → Interviews → Placement

3. How We Speak

Corporate-precise with institutions; friendly-human with learners; premium-restrained for flagships; bold-constructive when challenging old education. Factual always — **real value over gimmicks**.

4. How We Look

Navy #0A1931 · Brand blue #2563EB · Electro Shakel for display, Poppins for everything else. Main logo by default; mono for single-colour; outline art for backgrounds only.

5. Your First Week

Day	Checkpoint	Owner
-----	------------	-------

1	Accounts, access, buddy intro, mission briefing	[HR]
2	Shadow a live session + lab	[MENTOR]
3	Brand & tone immersion; tool walkthrough	[BRAND]
4	First contribution draft + review	[MANAGER]
5	Retro, 30-60-90 goals, sign-off	[MANAGER + HR]

Skill Rules. Skill Reigns. — Rauhaan Bidri, Founder & CEO
